FOR IMMEDIATE RELEASE

## **RON TIMMERMANS EARNS NAFI MASTER INSTRUCTOR ACCREDITATIONS**

**KALAMAZOO, MI — 12/12/2019**

The National Association of Flight Instructors is proud to announce that NAFI member Ron Timmermans has earned accreditations as a NAFI Master Flight Instructor, and Master Ground Instructor. This is Timmermans' second Master Flight as well as his second Master Ground Instructor Accreditation.

Timmermans earned his Private Pilot Certificate in 1972 and went on to add

Commercial, Instrument, CFI/MEI, ATP, and Remote Pilot to his credentials.

Shortly after he became a CFI-IA/MEI-IA, he began working with the Beechcraft Pilot Proficiency Program providing ground and flight instruction to owners of Beech Bonanzas and Barons. He also began a part-time independent flight instruction practice in the North Texas area. Now established in central Florida, Timmermans has a sizable following of Beechcraft clients who seek his professional ground and flight training services for recurrent training, transition to high-performance aircraft, instrument training and IPCs, multiengine and other specialized training.

Selected by AOPA to become one of a select group of professional ground instructors for the AOPA Rusty Pilots program, Timmermans is now making presentations around the United States as an ambassador to encourage and re-train inactive pilots in an attempt to help them experience the thrill of

flying once again. Timmermans continues his aviation education and self-development through online and in person training opportunities like the NAFI Professional Development Center. He has earned FAA WINGS validation at the Basic, Advanced, and Masters levels on multiple occasions. He is a FAA Team Lead Representative and frequently makes presentations at WINGS seminars.

In his pro bono work for the Florida Aviation Network, he has helped disseminate the knowledge and experience of his fellow aviation professionals through YouTube and other channels. Over the years at Sun 'n Fun, Timmermans has conducted many live interviews, more than 20 in 2019 alone. He has interviewed NAFI Board Chairman Bob Meder several times.

Timmermans has also hosted several NAFI MentorLIVE broadcasts. Timmermans is a dedicated leader in the WINGS Industry Advisory Committee—a coalition of NAFI and other industry members as well as FAA personnel dedicated to improving the WINGS program and encouraging more pilots and CFIs to earn a phase of WINGS and improve aviation safety.

Timmermans was selected as the 2017 CFI of the Year for the Orlando, Florida FAA Flight Standards District Office and also for the FAA Southern Region. In addition, he was the recipient of the first Larry D. Enlow Award for his contributions to aviation safety and training in the Orlando FSDO.

*The **NAFI Master Flight Instructor Accreditation** is earned by aviation educators based upon a system of advanced professional standards and peer review. The accreditation identifies and publicly recognizes those teachers of flight who demonstrate an ongoing commitment to excellence, professional growth, and service to the aviation community. The NAFI Master Instructor accreditation is for two years and may be used to renew an FAA flight instructor certificate. Applicants must have been a CFI for two years and have given 1,000 hours of flight instruction. In addition, candidates must meet and document activity in four NAFI Master Instructor categories (Instructor, Educator, Service to the Aviation Community, and Professional Activity).*

*Members of the **National Association of Flight Instructors** work as independent instructors, at flight schools, universities, FBOs, corporate flight departments and in the military. Since 1967, NAFI and its members, who teach in 30 countries, are dedicated to increasing and maintaining the professionalism of flight instruction. NAFI members influence active pilots daily: students working to become pilots, current pilots training to advance their skills with new ratings or certificates and pilots who seek to improve their skills with recurrent training. NAFI also serves as an advocate with industry and government as a voice for flight instruction. NAFI helps shape the current and future direction of flight training. For more information about NAFI or the NAFI Master Instructor program call **866-806-6156** or visit [www.NAFINet.org](http://www.NAFINet.org).*
