FOR IMMEDIATE RELEASE

## **DOMENIC LAFAUCI EARNS NAFI MASTER INSTRUCTOR ACCREDITATION**

**KALAMAZOO, MI — 4/01/2019**

The National Association of Flight Instructors is proud to announce that NAFI member Domenic LaFauci has earned accreditation as a NAFI Master Flight Instructor. This is LaFauci's second consecutive NAFI Master Instructor accreditation.

On his 20th birthday, LaFauci fulfilled a childhood dream and took to the skies for the first time. The seemingly innocuous discovery flight changed everything; he was hooked. In a matter of months, he found himself driving an over-packed Jeep from Massachusetts to Daytona Beach, Florida;

home of Embry-Riddle Aeronautical University. It was there, that LaFauci would earn a Commercial Pilot certificate, an Aircraft Dispatcher certificate and his AGI and IGI ratings.

While at ERAU, LaFauci purchased an unfinished Bede BD-5 from a local EAA Chapter. He housed it in his living room, which was not easy to explain to his newlywed wife. However, with her help, he was able to convince the school's legal board to take the aircraft on as an educational endeavor for the benefit of the students. This project would eventually lead him to rub elbows with NASA Astronaut Nicole Stott, as well as some of the top mechanics in the country. He used this project as a way to get students involved with airplane design. Students from the pilot, aerospace engineering and mechanics disciplines all participated in building the BD-5.

Post-graduation, LaFauci instructed for Bridgewater State University's Part 141 Aviation Science Program. He worked his way up to the position of Staff Assistant for Records and Compliance. LaFauci managed the university's aviation outreach programs and hosted BSU flight program annual open house, career expo, and FAASTeam safety events. LaFauci also served as advisor of the Bridgewater State University Aviation Flight Team and lead the team into the NIFA Safecon 2018 National Competition.

During this time, LaFauci earned his Instrument and Multi-engine Instructor certificates and worked part-time at East Coast Aero Club, where he says he satisfies his passion for vintage tailwheel, multi-engine, and high-performance airplane instruction.

LaFauci is pursuing a masters degree in education and is scheduled to graduate in May of 2019. He recently begun working with Wiggins Airways as a PIC on the Beechcraft BE-99, and continues to educate others through his website [www.TheCFIGuy.com](http://www.TheCFIGuy.com). He says he hopes to someday teach out of turbine-driven aerobatic aircraft.

*The **NAFI Master Flight Instructor Accreditation** is earned by aviation educators based upon a system of advanced professional standards and peer review. The accreditation identifies and publicly recognizes those teachers of flight who demonstrate an ongoing commitment to excellence, professional growth, and service to the aviation community. The NAFI Master Instructor accreditation is for two years and may be used to renew an FAA flight instructor certificate. Applicants must have been a CFI for two years and have given 1,000 hours of flight instruction. In addition, candidates must meet and document activity in four NAFI Master Instructor categories (Instructor, Educator, Service to the Aviation Community, and Professional Activity).*

*Members of the **National Association of Flight Instructors** work as independent instructors, at flight schools, universities, FBOs, corporate flight departments and in the military. Since 1967, NAFI and its members, who teach in 30 countries, are dedicated to increasing and maintaining the professionalism of flight instruction. NAFI members influence active pilots daily: students working to become pilots, current pilots training to advance their skills with new ratings or certificates and pilots who seek to improve their skills with recurrent training. NAFI also serves as an advocate with industry and government as a voice for flight instruction. NAFI helps shape the current and future direction of flight training. For more information about NAFI or the NAFI Master Instructor program call **866-806-6156** or visit [www.NAFINet.org](http://www.NAFINet.org).*
